HOME GARDEN

Cultivation-Feeling with Urban STYLE

Available now!

The packaging design includes five different languages!

HOME GARDEN represents the fresh and newly created **Romberg STYLE** category and is aimed specifically at design-savvy and trend-conscious connoisseurs of healthy cuisine, who attach great importance to innovative cultivation products with sophisticated characteristics.

The Mini-Garden with LED plant light combines modern design and functionality. Individual cultivation ideas can be implemented in the smallest of spaces. You are open-minded and would like to try out the cultivation of trendy MicroGreens or do you prefer classic herbs like chives and parsley? **HOME GARDEN** gives seedlings a decisive kick in the growing phase and enables a large culinary variety!

The integrated LED light source allows not only an all-season and daylight-independent cultivation, it also promotes the freshness of purchased herbs and salads. On a surface of 40 cm, pots of various sizes can be attractively placed. Basil, oregano and co. retain their characteristic and spicy flavor for a longer time. Perfect for the daily dose of healthy green! The puristic and elegant design of the Mini-Garden make it a decorative Home & Living article and provides cultivation and freshness with "that certain something"!

HOME GARDEN OVERVIEW

The Mini-Garden with its LED lightning is ideal for all-season cultivation and keeps the freshness of herbs and salads. It combines technical product features with a stylish ambience.

Recommended retail price incl. value added tax 49,95 €.
