M A D E F O R L I F E

Welcome to the SACKit universe, where Danish design and craftsmanship takes center stage, blending functionality and style in perfect harmony.

At SACKit, we understand the importance of creating beautiful spaces that make you feel at ease, without compromising on quality. With meticulous attention to detail and a passion for craftsmanship, we design and create furniture that elevates your everyday living experience. Our creations have all been designed to fit effortlessly in any home, contemporary or traditional.

Each piece in our collection reflects our dedication to good design and the use of high-quality materials, ensuring longevity and durability. SACKit creations are therefore made to last, and a SACKit product is a product you can enjoy for many years, if you take good care of it.

We believe that sustainability and responsibility is a pillar of design, particularly the long traditions of Scandinavian design. Not only are our designs created to withstand the test of time, we have also taken steps to bring reusable and recycled materials into our design process. This has led to the creation of unique and environmentally conscious furniture pieces that we are proud to feature in this catalog.

OUTDOOR COLLECTION

Explore a vast universe of outdoor furniture and accessories that can stay outside all year round.

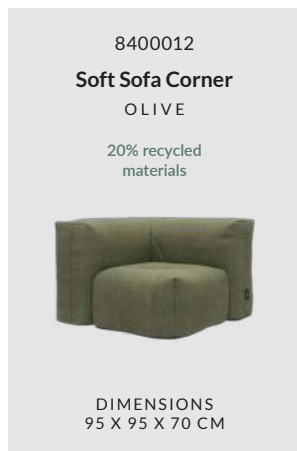

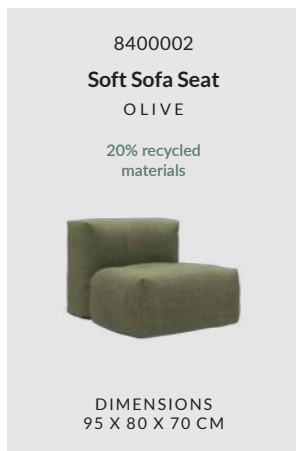

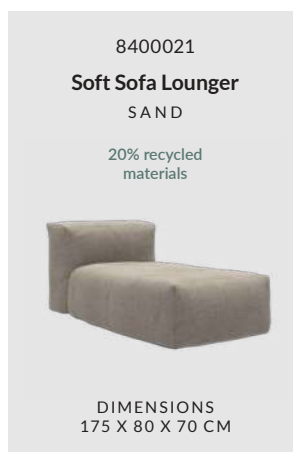

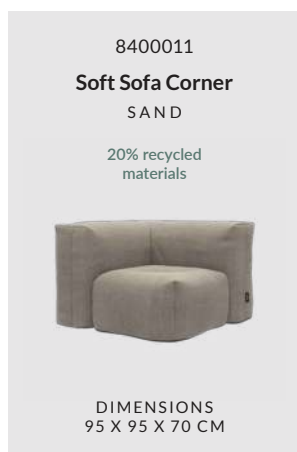

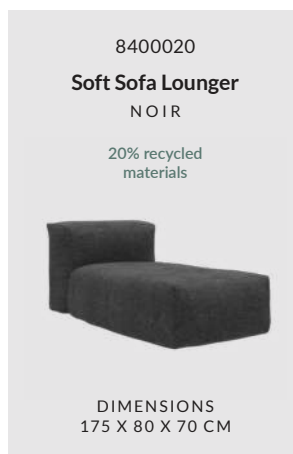

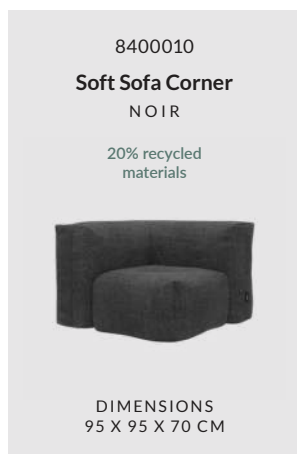

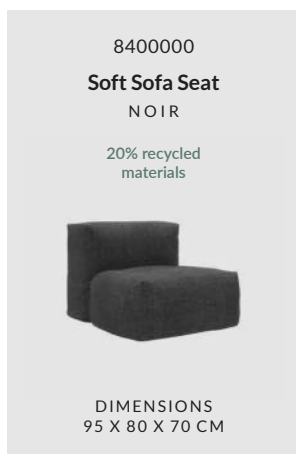

S O F T S O F A

Create your ideal outdoor lounge space with the Soft Sofa – designed for comfort and flexibility. The colors evoke images of Danish nature – sand, beach grass, and coastal rocks. With soft shapes and hues that naturally blend into the surroundings, and a modular design.

Unlike many outdoor sofas, the Soft Sofa offers a plush, inviting feel without compromising durability. Its weather-resistant materials ensure it stands up to sun, rain, and changing seasons while maintaining an exceptional level of comfort. Whether you're relaxing in the afternoon sun or enjoying an evening under the stars, this sofa is made for year-round use. The non-slip base ensures that each module stays in place.

With a modular design, you can customize your setup to fit any space. The corner, seat, and lounge modules can be easily rearranged to suit your needs, while a handle on the back makes it simple to move. Whether you want a spacious lounge area or a compact setup, the Soft Sofa adapts effortlessly.

The Soft Sofa is upholstered with a thick-woven olefin fabric from Sunproof, which is UV-resistant, quick-drying, and resistant to mold. Plus, its intuitive 'plug and play' setup means no complicated assembly – just unpack and relax.

The Soft Sofa is modular, allowing you to freely design the perfect couch for your outdoor space.

Steffensen & Würtz

PATIO DINING SERIES

Enjoy life outside and dine al fresco with our Patio Dining Series, containing both outdoor dining tables and outdoor dining chairs. The series has been designed with a focus on uncompromising comfort and aesthetic.

The Patio Chair no. One is a versatile outdoor dining chair in timeless design, where nothing has been left up to chance. The seat is made of UV-stabilized, recycled plastic and the frame in powder-coated steel, giving you a highly resistant chair that can stay outside all year round. Additionally, the chair is produced in Europe, which contributes to a more responsible manufacturing process. This also ensures better quality control of each chair.

Patio Chair no. One is designed with comfort and the body's natural position in focus. The combination of the seat's soft curves, the slight slope of the seat, and the flexible backrest creates a chair with fantastic comfort that you and your guests can sit in comfortably for a whole evening.

The Patio Dining Tables and bench are made with powder-coated aluminum combined with gorgeous FSC® certified teak wood. In combination with the chairs, the outdoor dining tables create the perfect framework for memorable moments under the open sky with family and friends.

The mark of
responsible forestry

TEAK WOOD

The natural appearance of teak wood creates a beautiful and vibrant look that changes over time. The color of the wood gradually turns into a beautiful greyish patina after exposure to sun and weather.

All wood used in the Patio Dining Collection is FSC® certified, meaning it's been sourced from well-managed forests that practice responsible forestry, including ensuring that no more wood is logged than the forest can reproduce, while ensuring that lumber workers have the right safety equipment and fair wages.

Steffensen & Würtz

KIRRA DINING SERIES

The Kirra Dining Series is an elegant and durable collection of outdoor dining furniture designed for both style and resilience. With a refined Nordic aesthetic, the series features dining tables and chairs made from powder-coated aluminum and FSC®-certified teak, ensuring long-lasting quality and a timeless look.

The Kirra Dining Table is available in multiple sizes and offers a choice between a teak or ceramic tabletop, allowing you to customize your outdoor space to match your style. The teak option develops a beautiful patina over time, enhancing its natural charm, while the ceramic variant provides a sleek, modern look with exceptional durability. Both options are supported by a sturdy aluminum frame, ensuring stability in all weather conditions.

Pair it with the Kirra Patio Chair, a sleek and comfortable outdoor dining chair designed for both durability and style. With its combination of teak and aluminum, the chair is built to last while maintaining a sophisticated appearance.

Create lasting memories under the open sky with the Kirra Dining Series – a fusion of aesthetics, function, and quality craftsmanship.

KIRRA LOUNGE SERIES

Meet Kirra Lounge Series; a modern modular sofa and add-on furniture with an open design, made to transform your outdoor space into a relaxing oasis. The woven olefin cords, which make up the back of the sofa, create a visually stunning design feature that is not only eye catching but also gives the sofa a light and unique look.

The sofa is made from durable, high quality materials that can withstand life and all that comes with it. The series features a powder-coated aluminum frame and is upholstered with a thick-woven olefin fabric from Sunproof, which is UV-resistant, quick-drying, and resistant to mold. The fabric is both waterproof and UV-resistant. This allows you to leave the lounge sofa outside all year round - even in snow and rain. Furthermore, the cushions are filled with a special Quick-dry foam, which means the sofa is already dry by the time you're ready to use it.

The Kirra Lounge Series is designed in collaboration with the Danish design duo Steffensen & Würtz, who are also the designers behind our Nordic Bar Stools, the Cobana Lounge Sofa, and our Outdoor Dining Series.

The Kirra Lounge Series is more than just furniture; it's a long-term investment in both your comfort and the visual expression of your outdoor space.

The Kirra textile
is made with 20%
recycled materials.

COBANA SERIES

The Cobana Series embraces a seamless blend of indoor comfort and outdoor durability with a range of products made to withstand all weather conditions.

The series gets its name from the signature Cobana textile, which all products in the collection are upholstered with. The Cobana textile is made of a 100% synthetic Olefin material, which cannot mold - even if exposed to rain or humidity. The fabric is incredibly lightfast and UV-resistant, ensuring that each product, whether it be a chair, hammock or sofa, keeps its color.

The Cobana series allows you to create a personalized outdoor space with pieces that are connected in style yet entirely unique. Whether you prefer an intimate setting for two or a sprawling outdoor lounge to host gatherings, the Cobana collection offers versatility and durability in a timeless Danish design. If your space and needs changes, you can simply add more modules, chairs or an extra hammock for lounging.

Regarding maintenance, nothing has been left to chance, and caring for your Cobana pieces is effortless. A simple wipe with a wet cloth is all that's needed in terms of regular maintenance, and should an accident happen, spot-removing is easy, even on the lighter colors in the range.

Steffensen & Würtz

COBANA LOUNGE SOFA

There are few things better than relaxing on the couch with our loved ones, and with the modular Cobana Lounge Sofa, you can bring the hangout outside. Gather family and friends on sunny summer days, enjoy a quiet evening under the stars, or cozy up with a blanket and a warm cup of coffee in the autumn. The Cobana Lounge Sofa is modular so you can customize it for your outdoor space. Create a cozy two-seater or an elaborate sofa setup for ten people. You can even mix and match the four timeless colors, black, grey, brown and sand melange, to create a look that is entirely unique.

Made with durable materials, including the signature Cobana fabric, the Cobana Lounge Sofa can stay outside all year round. The filling is made with Quick Dry Foam, which ensures that the sofa is both comfy and dries incredibly fast, so you don't have to wait to use it after rain. Additionally, you don't have to worry about the color fading in sunlight as the Cobana fabric gets top grades on the lightfastness scale.

Finally, we're proud to be able to say that Cobana Lounge Sofa has been awarded a German Design Award - Special mention in its category of Excellent Product Design Lifestyle & Fashion. The German Design Award is an internationally renowned accolade bestowed by the German Design Council.

COBANA LOUNGE CHAIR

The Cobana Lounge Chair is the original piece of furniture in the Cobana Series, and it serves as a corner stone in the iconic collection. Ideal for every space, it can serve as an outdoor lounge chair on your patio in the summer, and in your living room as a cozy bean bag during the winter season.

The chair is upholstered with the signature Cobana textile (100% Olefin), which can't get moldy, and filled with non-toxic EPS beads and features the eye-catching hand-sewn stitches.

Designed to hold its shape over time, the chair provides both a stylish look and comfortable support. The Cobana Lounge Chair has been internally assembled of two individual inner bags. When you sit down on one of them, the other will be pushed up to support your back.

You can also combine the Cobana Lounge Chair with a matching pouf for added comfort, using the pouf as an extra seat, a small tray table, or a side table when combined with one of our trays.

The chair comes in a large range of both classic, neutral colors and bright colors full of personality - there's a Cobana Lounge Chair for everyone!

COBANA HAMMOCK

The Cobana Hammock offers great comfort and design. Transform your outdoor space into a serene oasis, where you can relax, enjoy the sun, and forget about your busy life. Produced with very durable and weather-resistant materials, the hammock is designed to withstand the test of time and provide you with years of comfort.

The hammock is also thoroughly thoughtout danish design. Two ergonomically shaped metal wires have been sewn into the hammock, making sure that it keeps its shape and gives you fantastic comfort when chilling. Along its edges, you'll see the hand-sewn stiches that give the design a little edge.

Additionally, the aluminum frame ensures that the hammock stays stable in all conditions - even in the worst weather possible. The hammock is easy to move, letting you catch the sunshine or move to the cool shade; no matter what, you're guaranteed to relax wherever you wish.

Like the rest of the Cobana Series, you won't have to worry about bringing the hammock inside, as the Cobana fabric is durable, water repellent, and lightfast. The fabric is made of 100% synthetic Olefin material, which never molds, so you can rest easy leaving your Cobana Hammock outside.

O U T D O O R T A B L E S

Our collection of outdoor tables is designed to enhance your outdoor living experience, and to blend functionality and aesthetics seamlessly. In the range, you'll find our coffee tables and the outdoor serving table, all of which highlight the best features of the materials they have in common; powder-coated steel and aluminum, as well as natural teak wood.

Each table is designed to fit into any outdoor environment, so you can match it to any of our products, as well as any furniture or decor you already have at home. The designs are built from simple shapes and embrace clean lines and a modern look that contrasts beautifully with the warm teak wood.

The natural appearance of teak wood creates a beautiful and vibrant look that changes over time. The color of the wood gradually changes to a beautiful greyish patina after exposure to sun and weather. If you prefer the original warm and golden color of the wood, you can treat your teak furniture with teak oil, which both protects the wood from harmful elements and restores the beautiful, warm color.

All the tables are made to withstand every kind of weather, allowing you to leave them outside all-year round without worries.

What is Accessory Fit?

Our accessories, such as the Light series, flower pots, and wine coolers, are made to perfectly fit into a circular cutout in the aluminum tabletop, allowing you to mix and match them to create your perfect outdoor space. We call this custom cutout Accessory Fit.

The mark of
responsible forestry

The teak wood used in the making of our outdoor tables is FSC® certified, meaning it's been sourced from well-managed forests that practice responsible forestry, including ensuring that no more wood is logged than the forest can reproduce, while ensuring that lumber workers have the right safety equipment and fair wages.

A C C E S S O R I E S

A space is not fully complete until it has been decorated with gorgeous accessories - this is true for both indoor and outdoor spaces. Therefore, we have chosen to design a range of outdoor accessories that can be combined with our outdoor furniture, as well as be used on their own.

Each accessory is unique and serves a different purpose but they all have a couple of things in common. First of all, they are designed in Denmark with a clean, modern look that can fit into any home and decor. Second, they are designed to be used over and over again for many years. To ensure that they keep looking their best, we use high-quality materials made for outdoor use in the production, such as aluminum, and stainless steel. Lastly, they are made from very durable materials that can withstand being left outside all year round, just like our furniture. Of course, all the accessories, with the exception of the oil lamp, can be used indoors as well as outdoors.

To accompany our range of accessories, we have created two Patio Accessory Stands. These stands are created with a simple design that allows them to function as a natural extension of the accessories. The Patio Accessory Stands also make it easy to mix and match accessories, allowing yourself to create your own customized outdoor space.

INDOOR COLLECTION

Discover the perfect blend of functionality and elegance with our indoor furniture range, crafted to inspire comfort and relaxation in every room.

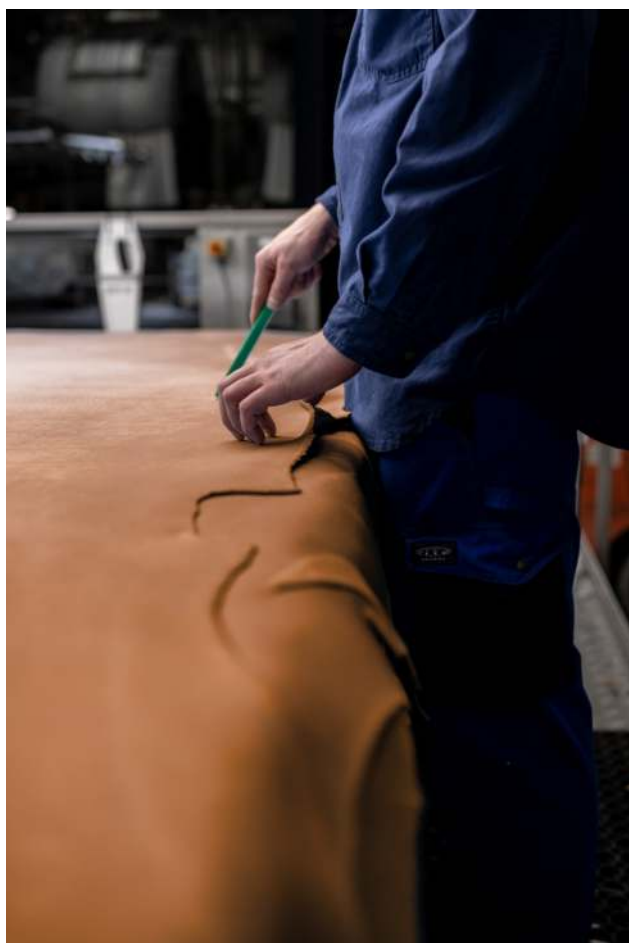

TRACEABLE LEATHER

With increasing demands for sustainability from customers who want to know what they are buying, SPOOR makes it possible to make a conscious and informed choice. When you choose a product with SPOOR leather, you can also rest assured that the leather is produced responsibly and transparently, and that the entire process is well documented.

SPOOR Collection is high-quality leather from Scan-Hide, Denmark's last tannery. The leather is 100% traceable from the cow to the finished product. This means that the leather used in the product you buy can be traced through the entire process from the farm to the factory to the finished product.

SPOOR ensures complete transparency by only sourcing raw hides directly from slaughterhouses that buy the cattle directly from the farmers who raise the animals. Additionally, all SPOOR rawhides are by-products of the food industry. This means that no animals are slaughtered for their skins.

In addition, SPOOR guarantees that the leather comes from Northern European raw hides. Therefore, you are also guaranteed that the cattle have lived under some of the highest animal welfare standards in the world, and all suppliers meet EU requirements, as well as the Five Freedoms.

DINING FURNITURE

Our exquisite collection of indoor dining chairs and dining tables is designed to elevate your dining experience with a perfect blend of comfort, style, and functionality. Both the Edge Dining Table and Chair no. One are designed in Denmark and made entirely in Europe.

Our dining chairs are crafted to provide maximum comfort and support. The chairs feature polished finishes and ergonomic designs, ensuring a luxurious seating experience. The frame is made from recyclable aluminum, while the seat is made from recycled plastic and upholstered in high-quality SPOOR leather, tanned at the last Danish tannery.

Complementing our chairs is the sleek Edge Dining Table. Available in three lengths, 180 cm, 240 cm and 300 cm, the table is designed to be both a functional space and a statement piece.

Together, our indoor dining chairs and tables create a harmonious dining environment that invites you to gather, share, and enjoy memorable moments with family and friends. Experience the blend of modern design, superior comfort, and exceptional quality with our dining collection, and transform your dining space into a haven of style and sophistication.

F J O R D S O F A

Made entirely in Europe, the Fjord Sofa is our take on the absolute best modular sofa in a beautiful Scandinavian design. The sofa's design focuses on a soft and organic expression, with rounded edges and seamless transitions that give the sofa a harmonious look.

With three modular components - a corner module, a seat module, and a pouf - the Fjord Sofa offers endless configuration possibilities, allowing you to tailor it to your needs and style. Whether you prefer a classic sofa setup, a spacious sectional, or a unique lounge layout, the Fjord Sofa adapts effortlessly.

Crafted with meticulous attention to detail, the Fjord Sofa is available in two premium fabric options. Nevotex Sealife, made from 100% recycled polyester, includes materials collected through the Seaqual Initiative, transforming ocean and river waste into beautiful, sustainable textiles. Nordic Fabric Cosmo is made from environmentally certified polyester. The fabric has a smooth and soft surface that provides a comfortable and high-end feel.

The sofa's gently curved armrests and sleek lines create an inviting and elegant silhouette, while its modular design ensures versatility to fit any space or style. Designed to prioritize comfort, it features plush cushions with a supportive yet relaxed feel, making it the ideal spot to unwind after a long day.

Whether as a statement piece or a central element in your living space, the Fjord Sofa combines style, comfort, and adaptability, elevating your interior with its refined yet versatile design.

N O R D I C S E R I E S

Our Nordic Series embodies the elegance and simplicity of Scandinavian design. This series features a range of beautifully crafted furniture pieces, including the Nordic Barstool, the Nordic Bench, the Serving Table, and the Serving Trays. Each piece in this collection is designed to bring a touch of Nordic sophistication to your home, blending form and function seamlessly.

The Nordic Barstool is available in both natural oak and black stained oak, each version reflecting the craftsmanship and attention to detail. These stools offer a comfortable seating experience with their ergonomic design and sturdy construction, making them perfect for your kitchen or bar area.

The collection primarily features oak and beech wood, renowned for their strength and timeless beauty. Each piece is meticulously finished by skilled cabinetmakers, highlighting the natural grain and texture of the wood. Complementing the wood, select pieces incorporate metal accents, adding a modern touch to the classic Nordic design.

Experience the harmonious blend of simplicity, functionality, and timeless design with our Nordic Series, and transform your living spaces with the essence of Nordic charm.

LOUNGE CHAIRS

Our Indoor Lounge Chairs are designed with both style and comfort in mind, offering a selection of designs and finishes to complement any interior. Each chair is carefully crafted to provide a cozy and inviting seating experience, upholstered in high-quality fabrics and filled with non-toxic EPS beads and shredded foam that adapt to your body's shape. With new designs in development, our lounge chair collection continues to evolve, bringing fresh options to suit modern interiors.

From the timeless Canvas Lounge Chair to the elegant Luna Lounge Chair, our collection balances functionality with aesthetic appeal. Whether you prefer the durability of Canvas or the refined touch of traceable Nordic leather on Luna, each piece is made with attention to detail and superior craftsmanship.

Hand-sewn stitches and meticulous construction ensure long-lasting quality, while the lightweight design makes them easy to move and style in any space.

Available in a variety of colors, our indoor lounge chairs offer versatile options to suit different tastes and settings.

LIGHTING & LAMPS

Experience true scandinavian lighting with our lamp collections, including both fixed and battery-powered lighting solutions for indoor and outdoor spaces.

Designed by
Bønnelycke MDD

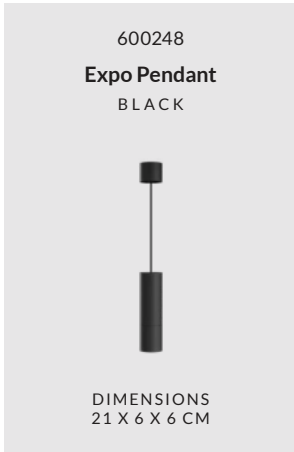

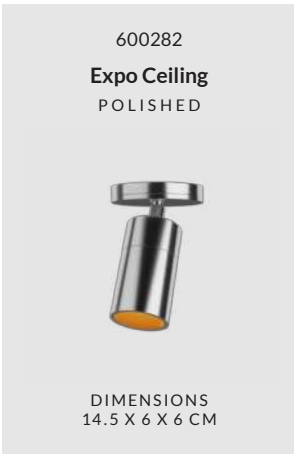

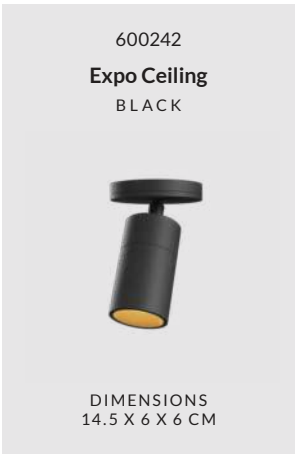

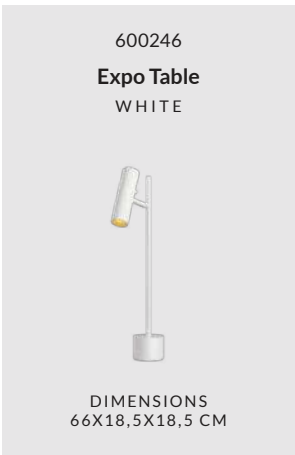

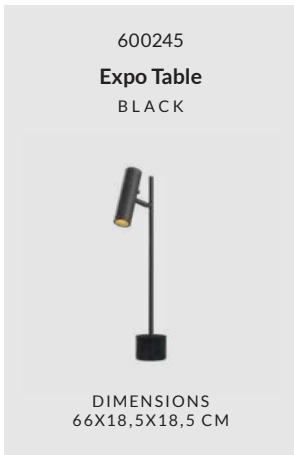

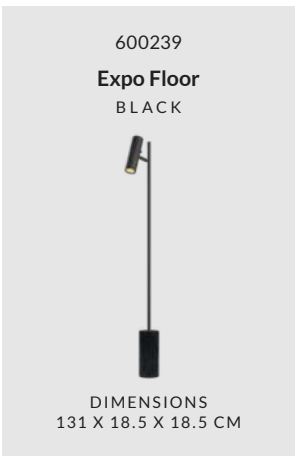

EXPO SERIES

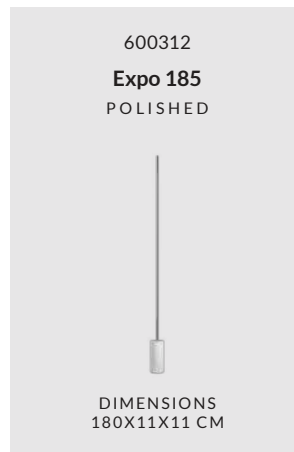

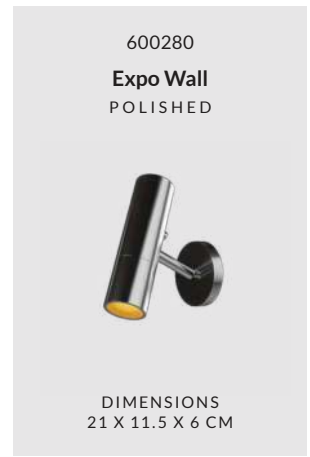

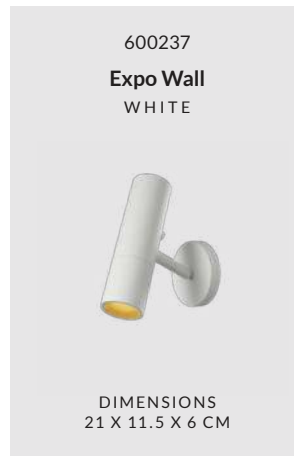

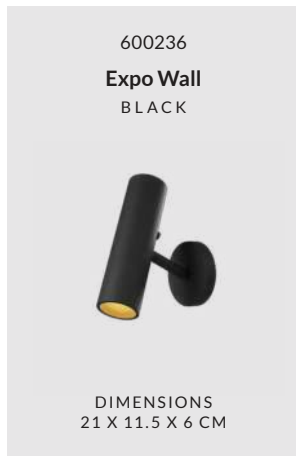

Designed in collaboration with Bønnelycke MDD, the Expo Series is a lighting collection with uncompromising design, where functionality and design come together. The Expo series is based on the Danish design traditions, where the design captures simplicity and functionality with timeless elegance, created with care and quality.

Nothing has been left to chance when it comes to the Expo series - not even changing the bulb. With a removable lampshade, it's easy to change the lamp's bulb, even if the bulb is recessed in the lampshade to ensure comfortable lighting and atmosphere in the room.

The materials have also been very carefully selected. The coated aluminum is both durable and sleek, giving the lamps a timeless and minimal look, while the golden coating creates both a signature detail as well as a warm and inviting light. Finally, the base for the floor and table lamps is made from solid marble, providing a sturdy base as well as a classic design detail.

The lamp series is both suitable as standalone centerpieces, as well as large-scale lighting projects, where the lamps will blend seamlessly into their environment and provide a touch of Scandinavian design.

MARBLE

Marble as a material distinguishes itself with its intricate patterns and veins. From Michelangelo's David to the Taj Mahal, marble has been the preferred stone of artisans for millennia. Beyond its timeless appeal, marble also boasts durability, making it the perfect choice for the Expo series.

Both the Expo Floor and Expo Table lamps feature a solid marble base that matches the aluminum color. The natural variations in the marble's appearance and color makes each Expo lamp completely unique.

Designed by
Bønnelycke MDD

DAWN SERIES

The Dawn Series is a celebration of classic design reimaged with a modern touch. Developed in collaboration with Bønnelycke MDD, the Dawn pendant lamps bring together simplicity and functionality, reflecting the essence of Scandinavian design. Inspired by the iconic workshop pendant, Dawn pendants feature a laser-cut perforation at the top, delivering both upward and downward lighting that creates a soft, expansive glow.

Made from durable aluminum and available in two sizes (Ø25cm and Ø40cm), the Dawn series fits seamlessly into any interior space, from intimate home settings to large-scale architectural projects. The pendant lights come with a three-meter wire in a matching color and are compatible with smart bulbs, allowing for modern connectivity without compromising on design integrity.

Complementing the aluminum body is a white inner shade, designed to optimize the lamp's light. This inner layer reflects and diffuses the light efficiently, ensuring both upward and downward illumination without glare.

With its meticulous attention to materials and construction, the Dawn series offers a harmonious blend of quality, functionality, and Scandinavian elegance, perfect for any modern space.

The battery-powered Lamp Intelligent is the cornerstone of our Ambience lamp series. Combining the app-controlled lamp with the series' unique lamp bases allows you to design your lamp exactly as you want it, or switch it up whenever you want a new look. The lamp is IP67 dust- and waterproof and made of extremely durable materials. It, and all Ambience bases except the Oslo base, can therefore be used both inside and outside, allowing you to create gorgeous outdoor spaces with ambient lighting.

Light creates life and sets the mood for the whole room. With a single touch in the app or on top of the lamp you can easily change the lamp's brightness and therefore also the mood of the room. The lamp comes with three pre-made settings for brightness, as well as a setting for freely adjusting it as you see fit – which the lamp then remembers the next time you turn it on. The lamp can be turned on with a single press on the top while it is in a base or in the app, so you don't have to take the lamp out of its base to turn it on.

Let your senses travel from the industrial London to New York's moody jazz bars when you choose the base for your SACKit Ambience Lamp. The bases feature high-end materials such as frost-proof opal and smoked glass, powder-coated aluminum, stainless steel, and FSC® certified oak wood.

The mark of
responsible forestry

The oak wood used in the making of the Ambience Oslo lamp holder is FSC® certified, meaning it's been sourced from well-managed forests that practice responsible forestry, including ensuring that no more wood is logged than the forest can reproduce, while ensuring that lumber workers have the right safety equipment and fair wages.

L I G H T S E R I E S

The Light series are the first lamps we designed, and to this day, they are one of our most popular product ranges. The nautical-inspired lamps allow you to extend the light in the late-night hours in summer or light up the dark winter. The lamp uses removable and rechargeable batteries, and with the series' Battery Charging Station you can charge up to 6 batteries at once.

SACKit Light is the result of thorough danish design with a nautical touch with the hempen rope that makes it easy to hang anywhere. The lamp screen is made with High Density Polyethylen, which gives it a matte and exclusive look. The high-quality materials makes the lamp extremely durable, and it can withstand temperatures down to -20 degrees Celsius. Additionally, the SACKit Light is IP67 certified, which means that it is both dustproof and waterproof. Therefore, you're getting a lamp that can be used all year around in all environments.

Available in three sizes, the lamp is perfect for bringing light to your indoor or outdoor space, or bringing it with you on the go - the lamp is for example popular with winter bathers, as they can bring it with them into the water and light up the pier, making it both a practical and cozy addition to a popular scandinavian activity.

P R O J E C T S

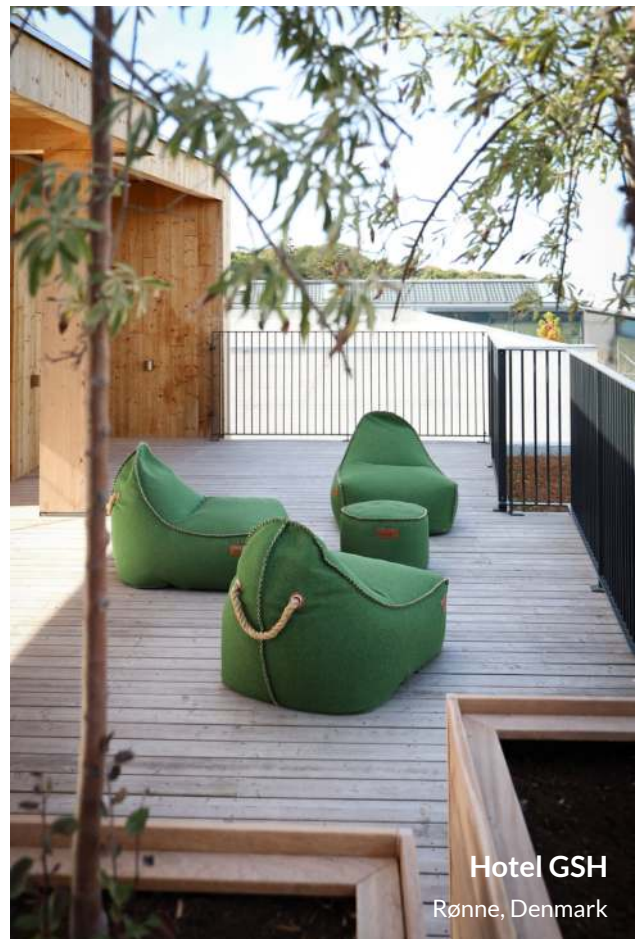

At SACKit, we recognize the importance of accommodating and versatile furniture solutions for our clients. These partners demand high standards of quality, comfort, and aesthetic appeal, and we are dedicated to meeting these expectations by offering bespoke solutions tailored to various commercial environments.

Our furniture is designed to endure heavy usage over extended periods, ensuring that it remains functional and attractive with minimal maintenance, even in high-traffic areas. This makes our products particularly well-suited for spaces that experience a constant flow of guests and customers, such as hotel lobbies, restaurants, and cafes.

We take pride in our Danish design heritage, which emphasizes simplicity, functionality, and style. This approach allows us to provide furniture that not only meets the practical needs of our clients but also enhances the visual appeal of their spaces. Our solutions cater to diverse requirements, from formal meeting points and conference rooms to casual lounge areas and outdoor patios.

M A T E R I A L S

At the core of our products lies a commitment to using high-quality materials. We understand that the foundation of durable and beautiful furniture begins with the careful selection of superior materials. Each type of wood, fabric, and hard material we use is chosen for its unique properties and suitability for various applications.

High-quality materials ensure durability and longevity, allowing furniture to withstand harsh weather conditions such as rain, sun, and wind. Materials like teak and powder-coated aluminum resist moisture and UV damage, preventing decay and fading.

We take pride in our sourcing processes, ensuring that every material meets our standards for quality and sustainability. By prioritizing recycled and eco-friendly materials where possible, we also strive to minimize our environmental footprint while delivering products that our customers can trust for their durability and aesthetic appeal. Our commitment to quality materials is not just about creating beautiful furniture; it's about building pieces that stand the test of time and minimizing the impact on our planet.

Additionally, we also always offer our clients flexibility with the option to produce custom orders with any desired textile, leather or other material.

Cobana & Kirra Fabric

Our outdoor fabric, made of Olefin, withstands all weather conditions. It is water-resistant and UV-resistant, perfect for outdoor use. Kirra is 20% recycled, promoting sustainability. Both fabrics ensure durability and style, keeping your outdoor furniture vibrant and functional despite exposure to the elements.

Nevotex Sealife Fabric

Sealife is a fabric made from 100% recycled polyester, of which approximately 21% comes from recycled plastic collected from the ocean. The Seaqual Initiative cleans oceans, rivers and beaches around the world of waste. The materials collected are recycled and turned into new yarn that the weaving mill uses to make Sealife, which is used in our Fjord Sofa.

Indoor Furniture Textiles

From Cosmo by Nordic Fabric to our durable Canvas fabric featured in our popular indoor lounge chairs – we carefully select materials that combine durability, comfort, and aesthetic appeal. Each fabric is chosen to ensure a long-lasting, stylish finish that enhances both the look and feel of our furniture pieces.

Traceable Leather

Sourced from Northern European hides, our leather is soft, beautiful, and available with multiple finishes. Each piece is unique due to its natural origins. Our leather is 100% traceable, ensuring transparency from farm to finished product and adhering to high animal welfare standards. Enjoy unmatched quality and authenticity with our traceable leather.

Teak Wood

Teak is renowned for its durability, resistance to weather and pests, and natural oil content, which makes it ideal for outdoor furniture. Its rich, golden-brown color and smooth grain add elegance and warmth to any space. Teak is a premium hardwood that ages gracefully, developing a beautiful patina over time, making it a timeless choice for quality craftsmanship.

Oak Wood & Oak Veneer

Oak wood is a strong, hard, and heavy wood known for its distinct grain patterns and durability. It is highly resistant to wear and tear, making it ideal for furniture and flooring. Oak's rich color deepens with age, adding a classic and sophisticated look to any interior. Its robust nature ensures longevity, making it a favored material for timeless pieces.

Polypropylene (PP)

Polypropylene (PP) is an excellent material for creating furniture shells due to its flexibility and strength. It offers remarkable durability, ensuring that our furniture can withstand daily use while maintaining its shape and functionality. Additionally, PP is resistant to moisture, chemicals, and fatigue. Importantly, our production primarily uses recycled PP.

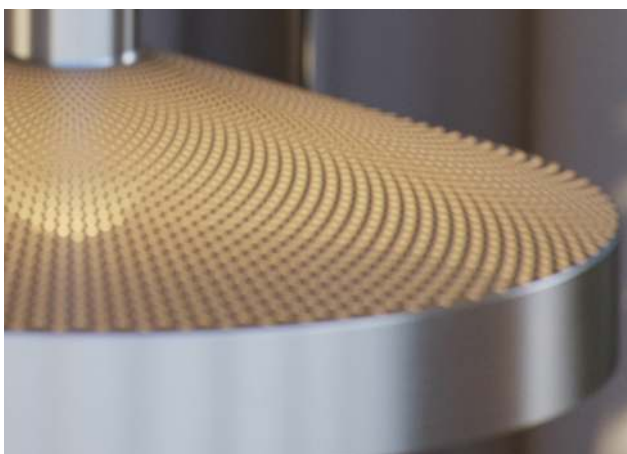

Powder-coated Steel

Powder-coated steel is a strong and durable material, perfect for outdoor furniture. The powder coating enhances its resistance to rust, corrosion, and weather, ensuring long-lasting performance in all conditions. Used in our outdoor dining chairs, it provides a sturdy foundation while maintaining a simple, modern appearance.

Powder-coated Aluminum

Powder-coated aluminum is a versatile material perfect for both indoor and outdoor furniture. The powder coating enhances its resistance to corrosion and weather, ensuring long-lasting durability. Lightweight yet strong, it provides a sleek, modern look that suits various furniture designs, maintaining its integrity and appearance over time.

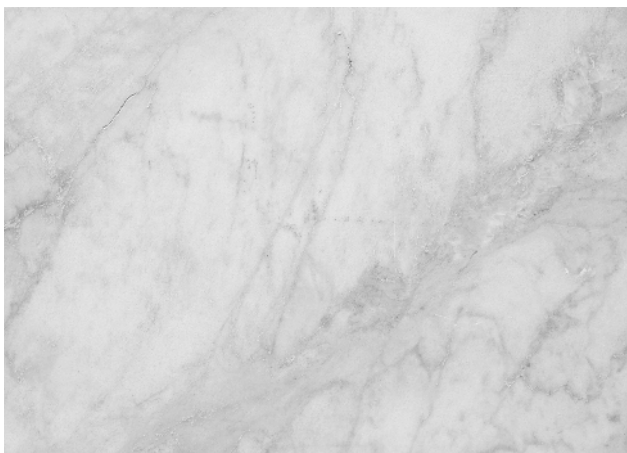

Polished Aluminum

Polished aluminum is a refined and durable material ideal for both furniture pieces and lamps. Naturally resistant to corrosion, it maintains its strength and appearance over time while being lightweight and easy to maintain. Its smooth, reflective surface adds a contemporary touch, enhancing the overall aesthetic with a sleek and modern shine.

Stainless Steel

Stainless steel is renowned for its durability and corrosion resistance, making it ideal for furniture and fixtures. Its sleek, modern appearance adds elegance to any design. Known for its strength and longevity, stainless steel is suitable for both indoor and outdoor use, ensuring a stylish and enduring finish that withstands the test of time.

Marble

We chose to use marble for our Expo lamps due to its heavy, beautiful, and unique characteristics. Each piece of marble is distinct, adding a touch of elegance and luxury. Its durability ensures that our lamps not only look stunning but also stand the test of time, making them a perfect blend of beauty and functionality.

R E S P O N S I B I L I T Y

At SACKit, sustainability is a cornerstone of our mission, guiding every aspect of our operations. We are dedicated to creating durable, high-quality products with timeless designs to minimize waste and environmental impact. This dedication is reflected in our partnerships with environmental organizations like Plastic Change, and our commitment to reducing plastic usage through sustainable packaging solutions made from FSC® certified materials. We also focus on responsible forestry practices, aiming to ensure that the materials we use are sourced sustainably.

By exclusively working with SPOOR leather, we ensure that our products are produced responsibly and with full transparency. In addition, SPOOR guarantees that the leather comes from Northern European raw hides.

Our sustainability efforts extend beyond materials to include innovative practices that reduce electronic waste and optimize freight processes to lower our carbon footprint. By adhering to the Amfori BSCI code of conduct, we ensure that our production methods meet international standards for ethical conduct and sustainability. This code governs our commitment to fair labor practices, environmental protection, and continuous improvement in our supply chain.

We are constantly seeking new ways to enhance our sustainability initiatives. From reducing waste and emissions to supporting global environmental efforts, our goal is to create products that are not only beautiful and functional but also have a positive impact on the planet.
