[T00206] [T00208] [T00180] [T00207]

The TUOZI Rocket stove is an extremely efficient wood burning stove. It uses up to 50% less wood when compared to traditional wood stoves and reach cooking temperatures extremely fast, with very small quantity of fuel. As fuel, the TUOZI Rocket Stove burns any kind of wood or other natural fuel such as, dry garden waste wood or debris and other dry biomass fuel.

It is extremely practical, and allows to cook any kind of food, in a healthy, economic and environmentally friendly way. It can be used with pans, wok, planchas and other available accessories. It can also be used as an outdoor heater.

Please check for available accessories, and explore all the potential of cooking with the TUOZI Rocket Stove.
Available in Stainless Steel or thermal resistant Powder Coated Steel.
